

Company presentation

Growing on trust and safety

Our group

Bazzi, Insurance Partners has been present for almost forty years in the market of insurance brokers. We are an independent company that operates **nationally and internationally** from its historic headquarters in Casale Monferrato.

The company initially carried out its activities dedicating itself to the Italian market starting from some strategic sectors of northwestern Italy, expanding its objectives towards strategic realities in the most varied economic sectors, paying particular attention to the **internalization needs** of its customers, successfully approaching the opportunities of the foreign markets.

International Insurance Broker providing consulting services for companies and industry in general, as well as for professional firms and banks.

Our methodological approach is based on the study of the company insurance program, developing in a synergistic perspective between essential regulatory aspects and cost optimization.

All through tailor-made insurance solutions.

Specialized in the management and settlement of claims, through a dedicated team of professionals who support the insured at all stages of the accident.

Management

At Bazzi, Insurance Partners we follow our customers around the world, having developed a particular expertise in the creation and management of sophisticated and at the same time simple international programs. **Our dedicated team studies and defines insurance programs based on the geographical needs of companies:**

- Integrated International Programmes;
- Programs in Freedom of Service (LPS) (also called Freedom of Service / F.O.S.);
- Non-Admitted programs.

Through a capillary and close-knit network, we achieve our goal on a daily basis: to allow our customer to have the risk of their branches under control, as if they were located a few kilometers away.

Our partners manage your branch taking into account its global dimension within a Group, not as a single local entity. The specific risks of each individual country are strenuously negotiated on the local market, just as we do with the Parent Company.

Our customers
